

# DUCTFORMER

## Dual Head TDFC Rollformer

F-Style  
Flange

OR

C-Style  
Flange

Simple Handwheel adjustments allow the operator to make width change-overs in 1 - 2 minutes.

Ductformer's Dual Head TDFC Rollformer is designed for installation in existing duct coil lines or can be used as a free standing unit. The rollformer is designed to accept and form the TDFC (F & C-Style) flange down both edges of the 18 - 26 gauge blank. Our robust yet simplistic design makes the TDFC Rollformer the work horse of any shop for many years to come.
