

# Engel Edge Notcher

## M-750, M-1250

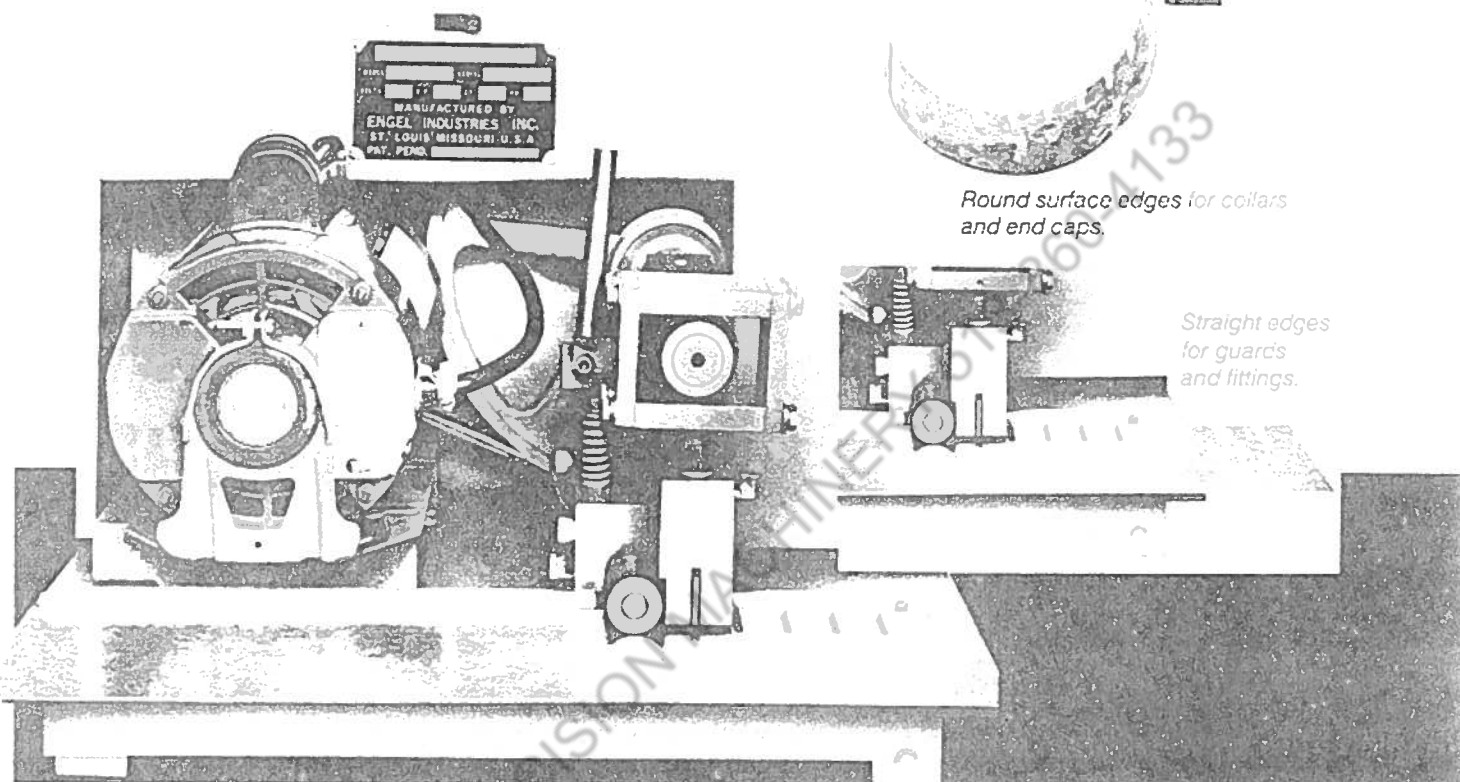

*It progressively cuts dovetail notches on straight or round collar metal edges.*

*Round surface edges for collars and end caps.*

*Straight edges for guards and fittings.*

### Features

The Engel Edge notcher is designed to notch the edges of sheet metal quickly, accurately and automatically. The Edge notcher is equipped with power-driven feed rolls and a guide assembly for precision in automatically feeding and controlling metal through the notching dies. Edge notcher—a valuable addition to any sheet metal shop. Can notch round surfaces as well as straight for maximum flexibility.
